bug off

### Minigarden Bug Off Red PROTECTION IMMUNITY SUPPLEMENT

#### Product description

Strengthening the immune system of plants is essential for ensuring their healthy and balanced growth. To guarantee the vitality and protection of your plants, we have developed **Minigarden Bug Off**, a new solution to stimulate and strengthen the natural defences of plants against pests and diseases. With **Minigarden® Bug Off** you can choose the supplement most appropriate for each plant to grow healthily and naturally protected.

**Minigarden® Bug Off Red**, immune protection supplement containing biological fertilizer, which improves the general growing conditions of the plant. **Minigarden® Bug Off Red** are available in individual doses of 7 ml, to be diluted in 1.25L of water.

#### Composition

##### Information on ingredients:

40.13% Potassium (K) salts of fatty acids from vegetable origin  
59.87% Emulsifiers

#### Dosage and Application

Biological fertilizer to be sprayed as an additional source of potassium. Improves general growth conditions. One sachet (7ml) in 1.25 litres of water. Spray the entire plant. Repeat every 8 days, during the time of greater growth and while temperature and humidity are high. Intended for home gardening.
